Chamomile Specifications

Organic Way supplies dried Egyptian chamomile flowers to herbal tea blenders, botanical ingredient distributors and extract manufacturers. Tell us whether your priority is intact flower heads for a loose-leaf blend or a cut grade for processing, and we will prepare a quotation around that application.

Parameter	Specification
Botanical name	Matricaria chamomilla L. (syn. Matricaria recutita L.)
Plant part	Dried flower heads (capitula)
Country of origin	Egypt
Composition	100% dried chamomile flower heads
Product form	Whole, uncut dried flower heads
Appearance	Predominantly intact heads with yellow discs and white petals
Colour	Golden yellow centres with white to cream petals
Aroma	Characteristic sweet, aromatic, apple-like chamomile scent
Taste	Mild, floral and herbal; characteristically slightly bitter
Visible foreign matter	No visible extraneous material
Additives	None

Specification, not a batch-specific Certificate of Analysis. Final grade and commercial terms are confirmed in the quotation.
