Lemongrass Specifications

Organic Way supplies dried lemongrass for herbal tea blenders, beverage producers and botanical wholesalers. Its characteristic citrus-like aroma can be used in single-ingredient infusions or combined with other botanicals in tea and drink formulations.

Parameter	Specification
Botanical identity	Cymbopogon citratus - confirm on the offered specification
Plant part	Leaf material, according to grade
Supply form	Dried cut material; tea bag cut on request
Origin	Egypt

Specification, not a batch-specific Certificate of Analysis. Final grade and commercial terms are confirmed in the quotation.
