Parsley Specifications

Organic Way supplies dried parsley leaves and flakes to soup producers, sauce manufacturers and seasoning blenders. Leaf colour and particle size are central to an effective parsley specification, especially where the herb remains visible in the finished food.

Parameter	Specification
Botanical identity	Petroselinum crispum
Plant part	Leaves
Supply form	Cut dried leaves / flakes; finer grades on request
Origin	Egypt

Specification, not a batch-specific Certificate of Analysis. Final grade and commercial terms are confirmed in the quotation.
